| Name                         | Period  |  |  |  |  |  |
|------------------------------|---|--|--|--|--|--|
| Chapter 4 - Global Economies |   |  |  |  |  |  |
| 1)                           | Definition of Economic System:  |  |  |  |  |  |
| 2)                           | All the things used in producing goods and services are called  |  |  |  |  |  |
|                              | Technical Term is:  |  |  |  |  |  |
|                              | • Land:   |  |  |  |  |  |
|                              | • Labor:  |  |  |  |  |  |
|                              | • Capital:  |  |  |  |  |  |
|                              | • Entrepreneurship  |  |  |  |  |  |
| 3)                           | Scarcity means:   |  |  |  |  |  |
|                              | • What does scarcity force nations to do?   |  |  |  |  |  |
| 4)                           | Nations must answer three basic questions when deciding how to use their limited resources, they are: |  |  |  |  |  |
|                              | 1 —   |  |  |  |  |  |
|                              | 2 —   |  |  |  |  |  |
|                              | 3 —   |  |  |  |  |  |
| 5)                           | Types of Economic Systems   |  |  |  |  |  |
|                              | a. Market Economy   |  |  |  |  |  |

| b. | Commar | nd | Economy  |
|----|--------|----|----------|
